Subject: TSCA workshop Planning_ 5-1-19_ 9 am - 10 am Ex. 6 Personal Privacy (PP)

Hi Everyone, This is a reminder that we have a 9:00 – 10:00 am call tomorrow morning (Wednesday) to discuss the organization of a TSCA workshop addressing inadvertent PCBs in pigments/inks and downstream products utilizing those inks such as newsprint, packaging, printer inks, etc. The intent of the meeting (and agenda) is :

1. Address Ecology /SRRTTF co-sponsorship of the workshop and roles,
2. Get agreement on the proposal for the workshop, the primary objective(s), and the target audience,
3. Discuss options for presentations and pre-workshop research,
4. Set a timeline and next steps for moving forward

I've attached the workshop proposal. Note that the supply streams that are intended to be addressed are only those outlined in red in the graphic. At this point we are addressing inks and the downstream uses of those inks.

Thank you!

When: 9:00 AM - 10:00 AM May 1, 2019

Subject: RE: TSCA workshop Planning - next steps ?

Location: Call In Ex. 6 Personal Privacy (PP)

Hi All,

This email confirms the May 1st conference call (from 9:00 – 10:00 am PST) to discuss concepts for the Inadvertent PCB workshop we've been discussing on our TSCA Workgroup calls. I've added the conference call information to this meeting update.
